FACULTY LECTURES

2026

CURRICULUM YEAR

CURATED BY

Bravein Amalakuhan, MD

Program Director, Internal Medicine Residency

Methodist Healthcare Graduate Medical Education | San Antonio, Texas

The Ten Series

The catalogue is organized into ten themed lecture series covering the full landscape of faculty development in graduate medical education — from the craft of bedside teaching to ACGME accreditation, program governance, wellness, and health equity.

I	Teaching Lecture Series <i>The craft of clinical teaching — from simulation to the bedside.</i>	6 lectures
II	Resident Review Series <i>Formative feedback, struggling learners, and defensible decisions.</i>	4 lectures
III	Supervision Lecture Series <i>Supervision, autonomy, and the safe transfer of responsibility.</i>	2 lectures
IV	Scholarly Activity & QI Lecture Series <i>From bedside observation to disseminated scholarship.</i>	3 lectures
V	Program Development Lecture Series <i>Governance that actually drives program improvement.</i>	2 lectures
VI	ACGME Accreditation Lecture Series <i>What the ACGME actually requires — and how to deliver it.</i>	4 lectures
VII	Building a Positive Culture Lecture Series <i>The culture residents remember long after they graduate.</i>	3 lectures
VIII	SDOH, Equity & Diversity Lecture Series <i>Teaching social determinants at the level ACGME requires.</i>	5 lectures
IX	Communication Lecture Series <i>The conversations faculty dread — and how to lead them well.</i>	1 lecture
X	Wellness Lecture Series <i>Wellness as a program design decision — not an afterthought.</i>	2 lectures

S E R I E S

Teaching Lecture Series

The craft of clinical teaching — from simulation to the bedside.

01

Simulation-Based Medical Education

Design, fidelity, and measuring competency

02

Milestones: How to Use Them Correctly

A practical framework for formative and summative use

03

Teaching Clinical Reasoning to Residents

System 1, System 2, illness scripts, cognitive bias, and the think-aloud method

04

Teaching in the Outpatient & Ambulatory Setting

One-Minute Preceptor, SNAPPS, PIPP, and time-efficient teaching for a busy clinic

05

Teaching in the ICU

Excellence at the bedside: procedures, rounds, mentorship, resilience & beyond

06

Show Up: The Art and Science of Bedside Teaching

Ward rounds, clinic corridors, and the ICU bedside — teaching every resident, at every level, every day

SERIES

Resident Review Series

Formative feedback, struggling learners, and defensible decisions.

01

Feedback & Evaluation

From formative feedback to summative evaluation — a practical guide for faculty

02

Addressing the Struggling Learner

From identification to remediation — CCC processes, ACGME requirements & non-advancement

03

The Non-Advancement Decision

An evidence-based module on patient safety, competency assessment & defensible non-advancement

04

Professionalism & Ethical Conflicts in GME

Recognizing, escalating, and resolving professionalism concerns

S E R I E S

Supervision Lecture Series

Supervision, autonomy, and the safe transfer of responsibility.

01

Supervision & Transitions of Care in GME

The ACGME supervision framework in everyday practice

02

Progressive Autonomy: Granting Residents Greater Responsibility

An evidence-based module on competency-based training, entrustment & patient safety

SERIES

IV

Scholarly Activity & QI Lecture Series

From bedside observation to disseminated scholarship.

01

GME Scholarly Activity

A comprehensive faculty guide to Boyer's model, ADS, and the 7 ACGME domains

02

Quality, Safety & Risk Management in GME

POGMA, root cause analysis, risk reporting & a culture of safety in graduate medical education

03

HCA GME Scholarly Activity – The Process

HCA Healthcare process guide (Part 2) — from idea to dissemination

SERIES

Program Development Lecture Series

Governance that actually drives program improvement.

01

The Clinical Competency Committee Done Right

From rubber stamp to developmental powerhouse

02

The Program Evaluation Committee & Faculty Development

The governance loop connecting resident performance, curriculum, faculty, and ACGME accreditation

SERIES

VI

ACGME Accreditation Lecture Series

What the ACGME actually requires — and how to deliver it.

01

When ACGME Acts

The accreditation action spectrum — what happens when programs fall short

02

Teaching Transitions of Care

Supervise, audit, and model structured handoffs

03

Designing & Delivering a Mapped IM Curriculum

Curriculum mapping, didactic design, and faculty responsibilities under ACGME CPR Section IV.B (2025)

04

You Are the Standard

What ACGME actually requires of faculty

SERIES

VII

Building a Positive Culture Lecture Series

The culture residents remember long after they graduate.

01

Purpose, Inspiration & Program Culture

Sinek. Brown. Frankl. Clear. Edmondson. What they all mean for faculty at Methodist Healthcare

02

Building a Positive GME Residency Culture

A learning environment where residents belong, are valued, and woven into the fabric of Methodist Healthcare and San Antonio

03

Faculty Engagement & Evaluation

Building the culture. Measuring the impact.

SERIES

VIII

SDOH, Equity & Diversity Lecture Series

Teaching social determinants at the level ACGME requires.

01

SDOH Part 1 — Health Equity, SDOH & CLER 3.0

Teaching faculty to see, screen, and act on social determinants — in the encounter and in the curriculum

02

SDOH Part 2 — Beyond Aware

Teaching SDOH at the level ACGME actually requires

03

SDOH Part 3 — Teaching the Teacher

Faculty teaching skills for SDOH integration

04

SDOH Part 4 — From Bedside to System

SDOH advocacy in GME

05

Equitable Assessment & the Learning Environment

Bias in assessment, equity in evaluation, psychological safety, and the CLER 3.0 focus area

SERIES

IX

Communication Lecture Series

The conversations faculty dread — and how to lead them well.

01

Difficult Conversations in GME

The definitive faculty guide — from clinical concerns to mental health, professionalism to HR, and everything in between

SERIES

Wellness Lecture Series

Wellness as a program design decision — not an afterthought.

01

Wellness Is Not Burnout Prevention

Faculty & resident wellness in academic medicine

02

Recognizing Fatigue in Trainees

Seeing the signs, intervening early, and normalizing the conversation

A Philosophy of Faculty Development

This catalogue represents a complete framework for developing clinical faculty at Methodist Healthcare. Each series is evidence-based, anchored in the ACGME Common Program Requirements, and built from the practical realities of community-based academic medicine.

The lectures are designed to be delivered as stand-alone sessions, integrated into longitudinal faculty development curricula, or adapted for onboarding and milestone reviews. Together they form a coherent approach — one that treats faculty development not as compliance, but as the craft of shaping the next generation of physicians.

“The best programs are not built on policies. They are built on people who know how to teach, supervise, evaluate, and care — and who are given the training to do all of it well.”
